Abstract

Traditions have a great effect on the living of human beings and they have to act and react accordingly .Therefore, Islam has given due consideration to the traditions in law making in every field of life. Economics is one of the most important fields of human's life. So, Islam has given full instructions about this field. These instructions, based on traditions, should be followed by everyone during buying and selling goods but the traditional rules should not contradict the core teachings of Islam.

Surf is the most important type of today's business in which giving and taking is made on the spot .In the article "surf" in its new application and role of tradition in it will be discussed.

Key words: Urf (Tradition), Transection of Surf, modern dimensions, Analysis
